

Editorial

The Research Management Cell of Janamaitri Multiple Campus has been publishing an annual research journal since 2010 AD. Each issue of the JMC Research Journal has been published keeping with its glorious tradition. It is the tenth issue that contains seven scholarly articles with a multidisciplinary flavor and multifaceted approaches covering a wide range of topics.

The Research Management Cell has improved its journal from simply publishing articles edited by our own Editorial Board in 2010 AD to publishing our 5th issue with an ISSN number and peer reviewed since 2016 AD, and then to publishing both in printed and online form via NepJOL since 2017 AD. Following QAA (Quality Assurance and Accreditation), we are also committed to expanding our research activities in order to improve the quality of this journal.

The current issue contains four English-language articles and three Nepali-language articles, while three other articles were rejected during peer review. The articles cover topics such as Management, Mathematics, Health, English and Nepali. The articles' quality issues were formally inspected and feedback was provided by renowned academicians, including Prof. Dr. Bal Mukunda Bhandari, Prof. Dr. Tara Kanta Pandey, Prof. Dr. Shyam Krishna Maharjan, Prof. Dr. Ramesh Adhikari, Prof. Dr. Krishna Hari Baral, Prof. Dr. Radhe Shyam Pradhan, Prof. Dr. Hari Prasad Upadhyay, Prof. Dr. Eka Ratna Acharya, Prof. Dr. Rajendra Paudel, Dr. Gopal Thapa, Dr. Netra Mani Subedi, and Dr. Madhu Neupane. RMC thanks each of them for their invaluable contributions in bringing these articles in authentically reviewed form. The editorial board would like to extend our sincere thanks to the family of Janamaitri Multiple Campus for supporting us. Similarly, we would like to thank everyone who helped with the publication of this issue.

The cell is eagerly seeking true readers to investigate these articles and provide positive and constructive feedback for the journal's quality improvement. The forthcoming and upcoming issues will be the result of the esteemed faculty's scholarly activities in collaboration with weary students. The cell is ecstatic to be working in this ever-changing field of research, assisting the campus in ensuring demand-driven education in today's globalized educational arena.
