

WEEDS OF WHEAT IN NEPAL: A LITERATURE REVIEW

D. R. Dangol

ABSTRACT

This paper reviews publications dealing with weeds and/or their control in wheat (*Triticum aestivum* L.) in Nepal and enumerates 370 weed species of 210 genera in 54 families. This review shows that the Asteraceae (69 spp.), Poaceae (52 spp.), Leguminosae (25 spp.), Polygonaceae (19 spp.), Caryophyllaceae (18 spp.), Scrophulariaceae (17 spp.), Euphorbiaceae and Lamiaceae (14 spp. each), Brassicaceae and Cyperaceae (13 spp.), and Solanaceae (11 spp. each) were the dominant families, which accounted for 71.35% of the total weeds. This paper also documented 63 species reported as the principal or most common weeds and 4 species (*Chenopodium album*, *Cynodon dactylon*, *Phalaris minor*, *Polygonum plebeium*) as the most commonly reported weeds of wheat in Nepal in the papers reviewed. This paper also highlighted the fact that the researchers from the Tribhuvan University, Department of Plant Resources (then Department of Medicinal Plants/HMG) and Nepal Agricultural Research Council mentioned about the deposition of their herbarium specimens in the respective organizations. This paper also analyzed the publication media in which the reviewed papers appeared.

Key words: principal weeds, *Triticum aestivum*, weed flora, weed survey, wheat

INTRODUCTION

In Nepal, wheat (*Triticum aestivum* L.) is the principal winter crop with an annual production of 1746 thousand M. Tons in 2011 (www.indexmundi.com). The average yield of this crop is 1300 Kg/ha which is low in comparison to other countries. The low production of wheat may be associated with many factors; among them, weeds are one of the major problems. The weeds infesting the wheat crop reduce the crop yield upto 50 % in Nepal (Malla and Ranjit 1980, Ranjit 1982, Bhatta 1981, Shivakoti *et al.* 1977). To get maximum production, weeds of wheat should be managed properly. Since the weed management depends upon the type and intensity of weeds present in the crop fields, a sound knowledge on wheat weeds is necessary for determining economic control measures (Holm *et al.* 1977, Gupta 1984). With the same viewpoints, weeds of wheat fields from different parts of Nepal were reported (See references). However, these reports remain scattered up-to-date. This study was, therefore, undertaken to review the literature to prepare a list of species, determine the principal weed species and their distribution and herbarium specimen records mentioned in the papers dealing with weeds of wheat and their control in Nepal.

TRENDS IN WEED SURVEY IN WHEAT FIELDS

There are altogether 26 published papers on weeds and their control: 9 dealing with taxonomy and some aspects of weed flora, 8 with weed control on wheat and 2 with weed flora and their control. Numata, a Japanese ecologist published a paper on "methodology for the study of weed vegetation" giving examples of weeds of wheat of Nepal (Numata 1982). The studies on weeds and /or their control was initiated by Dr. O. P. Gupta in 1977 who worked as a visiting professor at the Institute of Agriculture and Animal Science, Tribhuvan University, Rampur,

Chitwan, Nepal for 2 years. In late 1970's the results of weed surveys in crop fields of Rampur (Gupta *et al.* 1977) and Kathamndu Valley (Rajbhandary and Ojha 1979) were reported. In 1980's, there were some works on weed flora of Jiri (Numata 1982), Kavre (Joshi and Gretzmacher 1999), Birganj (Dangol 1987), Rampur (Dangol *et al.* 1988, Shah *et al.* 2011ab), Kirtipur, Kathmandu (Chaudhary and Shrestha 1981), Khokana, Lalitpur (Sapkota *et al.* 2010) and Nepal (Regmi *et al.* 1986). Research works on weed control trials were also conducted in different Agricultural Research Stations of Nepal (Bhatta 1981, Malla and Ranjit 1980, Ranjit 81/82, 1982, 1983a, 1983b, Sthapit 1986). Mazek (1991) studied the weed vegetation of cultivated fields in Nepal. There are two reports that deal with weed and weed control aspect. The summary of the family, genera and species along with study locations mentioned in the papers reviewed is given in table 1.

WEED DIVERSITY

In Nepal, 370 species of wheat weeds representing 54 families and 210 genera of vascular plants were listed (Appendix 1). There were 4 non-flowering plants and 330 flowering plants (293 flowering plant dicots and 73 flowering plant monocots) (Figure 1). Among the total families, 16 families include 5 or more species which accounted for 79.19% of the total weed species recorded. Two most dominant families were the Aseraceae and Poaceae which had 69 and 52 weed species, respectively. There were 22 families with 2 to 4 species and 16 families with 1 species each. In the papers reviewed, the best-represented genus was *Polygonum* (15 spp.) followed by *Euphorbia* and *Stellaria* (8 spp. each), *Eragrostis*, and *Solanum* (7 spp. each), *Vicia* (6 spp.), and *Lindernia* and *Veronica* (5 spp. each). There were 15 genera with 4 spp., 16 genera with 3 spp., and 30 genera with 2 spp. The rest 141 genera were represented with 1 sp. each in the weeds of wheat in Nepal.

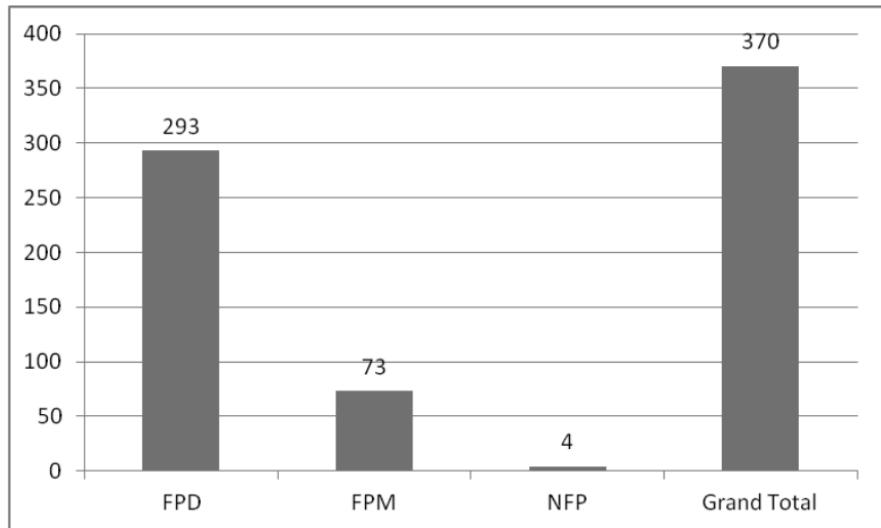

Figure 1. Floristic analysis of weed species of wheat in different groups (FPD= flowering plant dicot, FPM= flowering plants monocot, NFP= Non-flowering plants).

PRINCIPAL WEEDS AND THEIR DISTRIBUTION

Almost all authors of the reviewed papers mentioned some species as major/principal/ important weeds of wheat on the basis of visual estimation. However, Dangol *et al.* (1988) used summed dominance ratio {SDR= (relative density and relative frequency)/2} to calculate major/minor weeds. Numata (1982) also suggested such type of SDR expression for determining major weeds in farmlands. Mazek (1991) followed Braun-Blanquet method for estimating the cover value of weed species. Some authors used other ecological parameters for identifying dominant weeds (Dangol 2001, Ranjit *et al.* 2006, Sharma *et al.* 2010, Sapkota *et al.* 2010). The 63 weed species, which were reported as dominant/principal/abundant or major wheat weeds in the literature reviewed, are listed alphabetically in Table 2. Of the 63 major weeds, 53 were reported from hilly regions, 14 from the Inner Terai and 12 from Terai regions of Nepal. The species like *Chenopodium album* (Bethe), *Phalaris minor* (Ragate jhar), and *Cynodon dactylon* (Dubo), *Polygonum plebeium* (Sukuljhar) and *Vicia sativa* (Kutilkosha) were mentioned as major weeds for the three wheat growing regions of the country (table 2). Some of the weeds such as *Chenopodium album*, *Phalaris minor*, *Vicia sativa*, *Polygonum plebeium* (Sukule jhar) were the principal problem weeds of wheat in the Terai (Bhairahawa and Birganj) and hilly (Kathmandu Valley) regions of Nepal. Of the above three weeds, *Chenopodium album* and *Cynodon dactylon* were not reported as the major weeds of wheat in western hilly area (Sthapit 1986) and *Phalaris minor* in the central Inner Terai (Dangol *et al.*, 1988). Some of the weeds were locally important; for example *Cannabis sativa* (Ganja or Bhang) was reported as one of the most problematic weeds in wheat in the Kathmandu Valley.

HERBARIUM RECORDS

The authors employed either in National Herbarium (Kathmandu) or in the academic institutions reported about the deposition of their weed collections (table 1). The herbarium specimens of weeds were housed in National Herbarium, Godawary (Manandhar 1978); IAAS Herbarium, Rampur (Dangol 1987, Dangol et al. 1988); Agronomy Department, IAAS, Rampur (Gupta et al. 1977); and Central Department of Botany, Kirtipur (Chaudhary 1979, Chaudhary and Shrestha 1981) and Weed Science Unit, Agronomy Division, NARC, Khumaltar, Lalitpur (Joshi and Gretzmacher 1999). Except the above-mentioned authors, the others did not mention in their papers whether they had prepared herbarium specimens or not.

PUBLICATION MEDIA

The authors of the papers on weed control, except Ranjit and Bhattarai (1988), who reported 22 common weeds of wheat for Nepal in Crop Weeds and Their Control) mentioned only few weed species from experimental plots of different locations of Nepal such as Khumaltar (Central midhill), Bhairahawa (western Terai), and Hardinath (central Terai). Their reports were published in "Krishi" (magazine in Nepalese language), "Wheat Research Reports", "Wheat Report", and "Wheat, Barley and Triticale Report", "Annual Reports", etc.

Researchers published their research findings related to weedflora, ecology and weed management in different scientific journals published from Nepal, India and other countries. The authors published their research articles in the "J. Inst. Agric. Anim. Sci." (Gupta et al. 1977, Dangol, 1987, Dangol et al. 1988); "J. Nat. Hist. Mus." (Chaudhary 1979, Chaudhary and Shrestha 1981), "Nepalese J. Agric." (Rajbhandary and Ojha 1979); "Bull. Bot. Surv. India" (Manandhar 1978); "Botanica Orientalis" (Sapkota et al. 2010); "Agriculture Development Journal" (Shah et al. 2011a), "International Research Journal of Applied and Basic Sciences" (Shah et al. 2011b), "Nepal Journal of Science and Technology" (Joshi and Gretzmacher 1999) and "Kasetsart J." (Ranjit and Suwanketnicom 2003). The article of Regmi et al. (1986) was published in the proceedings of winter crops workshop held at Rampur Agriculture Station, Chitwan. It is obvious from the papers (table 1) that most of the works were either conducted in the Kathmandu valley or in the Chitwan valley. The total number of weeds reported by Regmi et al. (1986) i.e. 96 spp. for Nepal is very few in compared to the number of weeds reported from the two valleys (Kathmandu: 122 spp. and Chitwan: 78 spp.). Some genera, which were not identified into species, are listed from the papers on weed control and some from the paper of Regmi et al. (1986).

CONCLUSION

It is evident from publications that weed survey works were mostly confined either to the Kathmandu Valley or to the Chitwan Valley, and were conducted more than 20 years ago in

the former valleys, there opens a scope of conducting systematic and ecological surveys of weed community in the wheat fields of Nepal in order to understand the succession of weed community in the wheat fields vegetation and prioritize the weed management researches. Such type of survey should lead to establish weed herbarium at least in the agricultural academic and research institutions, namely in the Institute of Agriculture and Animal Science/Tribhuvan University, University of Agriculture and Forestry, Rampur, Chitwan and National Council of Agricultural Research, Khumaltar, Nepal. The herbarium records will aid in tracing the succession of weed communities in wheat in Nepal in future and aid as teaching and research materials for students, agriculturists, botanists and ecologists. Ecophysiological study on the principal weeds of wheat need to be studied with respect to important wheat varieties grown in Nepal so that their interaction principles could be understood and applied in the weed management in wheat.

ACKNOWLEDGEMENTS

I would like to thank two peer reviewers for their comments on the previous draft of this manuscript and Rupak Dangol for typesetting.

Appendix 1. Weeds reported to occur in wheat in Nepal.

(Families are arranged as per the Bentham and Hooker's classification system; species are arranged alphabetically in each family)

FAMILY NAME/Scientific names {Synonyms} "Nepali name"	Elevation ranges (m)	References
Non-flowering Plants		
EQUISETACEAE		
<i>Equisetum arvense</i> L. "Ankhle ghans"	2000-3800	Regmi <i>et al.</i> (1986), Joshi and Gretzmacher (1999)
<i>Equisetum debile</i> Roxb. ex Vaucher "Kurkure jhar"	200-2800	Dangol (1987), Dangol (2000-2001), Thapa (2003)
<i>Equisetum diffusum</i> D. Don "Ankhle ghans"	1000-2800	Regmi <i>et al.</i> (1986)
MARSILEACEAE		
<i>Marsilea crenata</i> Presl.	250-1000	Joshi and Gretzmacher (1999)
Flowering Plants: Dicots		
RANUNCULACEAE		
<i>Ranunculus diffusus</i> DC. "Nakuro, Nakore jhar"	1500-4000	Chaudhary (1979), Regmi <i>et al.</i> (1986)
<i>Ranunculus sceleratus</i> L. "Nakuro"	200-1700	Chaudhary (1979), Mazek (1991), Dangol (2000-2001), Sapkota <i>et al.</i> (2010)
<i>Thalictrum foliolosum</i> DC. "Dampate"	1300-3400	Regmi <i>et al.</i> (1986)

BERBERIDACEAE			
<i>Berberis aristata</i> DC. "Chutro"	1500-3000	Regmi <i>et al.</i> (1986)	
PAPAVERACEAE			
<i>Argemone mexicana</i> L. "Thakal, Satyanasi"	150-1400	Manandhar (1978), Devkota (1983), Regmi <i>et al.</i> (1986), Ranjit (1999), Ranjit <i>et al.</i> (2006)	
<i>Hypocoum leptocarpum</i> Hook.f. & Thompson	3310- 4050	Sharma <i>et al.</i> (2010)	
FUMARIACEAE			
<i>Fumaria parviflora</i> Wt. & Ait. { <i>F. indica</i> (Haussk.) Pugsley} "Jangali gazar jhar, Sounfe jhar"	200-2150	Devkota (1983), Regmi <i>et al.</i> (1986), Dangol <i>et al.</i> (1988), Ranjit and Bhattacharai (1988), Dangol and Chaudhary (1994), Thapa and Kayastha (1996), Dangol (2000-2001), Thapa (2003), Ranjit <i>et al.</i> (2006)	
BALSAMINACEAE			
<i>Impatiens sulcata</i> Wall.	130-3900	Sharma <i>et al.</i> (2010)	
BRASSICACEAE			
<i>Capsella bursa-pastoris</i> (L.) Medic. "Banchamsur"	400-4500	Chaudhary (1979), Raibhandary and Ojha (1979), Ranjit (1983a, 1983b), Ranjit and Bhattacharai (1988), Mazek (1991), Joshi and Gretzmacher (1999), Ranjit (1999), Ranjit and Sumakethrikom (2003), Ranjit <i>et al.</i> (2006), Sharma <i>et al.</i> (2010)	
<i>Cardamine impatiens</i> L. "Chamsur"	1500-4000	Ranjit (1983a)	

Appendix 1 Contd ...

<i>Cardamine pretensis</i> L.	1400	Ranjit and Bhattacharai (1988), Ranjit (1999), Ranjit and Sumaketnikom (2003). Ranjit et al. (2006),
<i>Cardamine sylvatica</i> Link { <i>C. hirsuta</i> L.} "Chamsure jhar"	100-4000	Chaudhary (1979), Rajbhandary and Ojha (1979), Ranjit (1983a,), Regmi et al. (1986), Mazek (1991), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Thapa (2003)
<i>Nasturtium officinale</i> DC. { <i>Rorippa indica</i> (L.) Hiern} "Ban rayo"	100-2000	Regmi et al. (1986), Mazek (1991)
<i>Nasturtium officinale</i> R. Br. ex Ait. "Sim rayo"	1400-2100	Chaudhary (1979), Ranjit and Sumaketnikom (2003),
<i>Rorippa dubia</i> (Pers.) Hara "Mulajari"	1200-1600	Thapa and Kayastha (1996), Thapa (2003)
<i>Rorippa islandica</i> Oider	1300-1500	Chaudhary (1979)
<i>Rorippa palustris</i> (L.) Bess.	1300-1500	Ranjit (1999)
<i>Rorippa sinuata</i> Nutt. Hipch.	1400	Chaudhary (1979)
<i>Senebiera parviflora</i> ?	1400	Ranjit (1983a)
<i>Senebiera pinnatifida</i> DC. { <i>S. didyma</i> Pers., <i>Coronopsis didymus</i> (L.) Sm.} "Chamsure ghans"	1400	Chaudhary (1979), Rajbhandary and Ojha (1979), Malla and Ranjit (1980), Ranjit (1983b), Regmi et al. (1986), Ranjit (1999), Ranjit and Sumaketnikom (2003), Ranjit et al. (2006)
<i>Sinapis nigra</i> L.		Mazek (1991)
CAPPARACEAE		
<i>Cleome viscosa</i> L. "Bantori"	200-750	Dangol et al. (1988)

VIOLACEAE		
<i>Viola diffusa</i> Ging. ex DC.	1400-2000	Mazek (1991)
<i>Viola patrinii</i> DC.		Chaudhary (1979)
<i>Viola pilosa</i> Blume		Sapkota <i>et al.</i> (2010)
<i>Viola serpens</i> Wall. { <i>V. canescens</i> Wall.}	1500-2400	Chaudhary (1979), Thapa and Kayastha (1996), Thapa (2003)
CARYOPHYLLACEAE		
<i>Arenaria glanduligera</i> Edgew. ex Edgew. & Hook. f.	1300-5100	Chaudhary (1979)
<i>Arenaria serpyllifolia</i> L.	900-2900	Chaudhary (1979)
<i>Cerastium glomeratum</i> Thuill.	1500-3810	Manandhar (1978)
{ <i>C. vulgatum</i> L.} "Vartti"		
<i>Cerastium holosteoides</i> Fries	700	Mazek (1991), Joshi and Gretzmacher (1999)
<i>Drymaria cordata</i> (L.) Willd. { <i>D. diandra</i> (Bl.) Duke} "Abhizalo, Apizalo"	700-2500	Manandhar (1978), Chaudhary (1979), Regmi <i>et al.</i> (1986), Sthapit (1986), Ranjit <i>et al.</i> (2006)
<i>Lepidocleis glandulosa</i> (Benth. ex G. Don) Ohaba	1300 1700	Manandhar (1978)
<i>Polycarpon prostratum</i> (Forssk.) Aschers.	200-1400	Mazek (1991), Dangol and Chaudhary (1994), Joshi and Gretzmacher (1999), Shah <i>et al.</i> (2011ab)
<i>Saponaria vaccaria</i> L. { <i>Vaccaria pyramidata</i> Medic.} "Sabuni jhar"	Up to 1500	Regmi <i>et al.</i> (1986)

Appendix 1 Contd ...

<i>Silene conoidea</i> L.	1200-3300	Mazek (1991)
<i>Spargula arvensis</i> L. "Jyayau jhar, Syal jhar"	900-1500	Raihindary and Ojha (1979), Ranjit (1983a), Regmi et al. (1986), Ranjit and Bhattacharai (1988), Ranjit (1999), Sapkota et al. (2010)
<i>Stellaria alsine</i> Grimm.	1400-4500	Mazek (1991), Ranjit and Sumakethnikom (2003)
<i>Stellaria aquatica</i> (L.) Scop.	1400	Mazek (1991), Joshi and Gretzmacher (1999), Ranjit and Sumakethnikom (2003)
<i>Stellaria documbens</i> Edgew.	3200-4000	Sharma et al. (2010)
<i>Stellaria himalayensis</i> Majumdar { <i>S. latifolia</i> (Benth. ex Royle) Edgew. Hook. f.}	2600-3400	Manandhar (1978)
<i>Stellaria patens</i> D. Don { <i>S. longissima</i> Wall.}	1300-4000	Chaudhary (1979), Mazek (1991)
<i>Stellaria media</i> (L.) Vill. "Kukhure"	1000-2600	Chaudhary (1979), Regmi et al. (1986), Ranjit (1999), Ranjit (2003), Ranjit and Sumakethnikom (2003), Ranjit et al. (2006), Ranjit et al. (2009), Sapkota et al. (2010), Sharma et al. (2010)
<i>Stellaria nepalensis</i> Majumdar & Vartak	700-2200	Mazek (1991)
<i>Stellaria uliginosa</i> Murr.	1400-1700	Joshi and Gretzmacher (1999)
PORTULACACEAE		
<i>Portulaca oleracea</i> L.	200-1500	Manandhar (1978), Chaudhary (1979)
HYPERICACEAE		

Appendix 1 Contd ...

<i>Hypericum japonicum</i> Thunb. ex Murray "Urelo jhar"	150-2600	Chaudhary (1979), Rajbhandary and Ojha (1979), Regmi et al. (1986)
<i>Sarothra laxa</i> (Bl.) Kimura	150-2600	Joshi and Gretzmacher (1999)
MALVACEAE		
<i>Malva verticillata</i> L.	2100-3500	Sharma et al. (2010)
<i>Sida cordifolia</i> L.	500-1100	Mazek (1991)
<i>Sida rhombifolia</i> L. "Barena"	100-1900	Manandhar (1978), Sapkota et al. (2010)
STERCULIACEAE		
<i>Melochia corchorifolia</i> L. "Patuwa jhar"	200-1300	Regmi et al. (1986)
TILIACEAE		
<i>Grewia sapida</i> Roxb. { <i>G. pumila</i> Ham. ex D. Don}	250	Dangol et al. (1988)
GERANIACEAE		
<i>Geranium nepalense</i> Sw.	1500-4000	Chaudhary (1979), Rajbhandary and Ojha (1979), Mazek (1991)
<i>Geranium polyalthes</i> Edgew. & Hook.f.	2400-2500	Sharma et al. (2010)
<i>Geranium pratense</i> L.	2200-3500	Sharma et al. (2010)
OXALIDACEAE		

Appendix 1 Contd ...

<i>Oxalis corniculata</i> L. “ Chari amilo”	200-2900	Gupta <i>et al.</i> (1977), Manandhar (1978), Chaudhary (1979), Regmi <i>et al.</i> (1986), Dangol (1987), Dangol <i>et al.</i> (1988), Mazek (1991), Thapa and Kayastha (1996), Joshi and Greitzmacher (1999), Dangol (2000-2001), Ranjit and Sumakethnikom (2003), Thapa (2003), Ranjit <i>et al.</i> (2006), Shah <i>et al.</i> (2011ab)
<i>Oxalis corymbosa</i> L. “ Thulo chariamilo”	1200-1800	Thapa and Kayastha (1996), Thapa (2003)
<i>Oxalis latifolia</i> HBK “Chari amilo”	250-1600	Chaudhary (1979), Regmi <i>et al.</i> (1986), Mazek (1991), Ranjit (1999)
RHAMNACEAE		
<i>Zizyphus jujuba</i> L. “Bayer”	200-1200	Thapa and Kayastha (1996)
LINACEAE		
<i>Linum usitatissimum</i> Lamk. “Alas”	150-3800	Thapa and Kayastha (1996), Thapa (2003)
LEGUMINOSAE		
<i>Aeschynomene indica</i> L.	200-1300	Numata (1982)
<i>Argylobium roseum</i> (Cambass) Jaub. & Spach	1900-3200	Sharma <i>et al.</i> (2010)
<i>Cassia tora</i> L. “Tapre Jhar”	200-1300	Dangol <i>et al.</i> (1988)
<i>Crotalaria juncea</i> L.	250	Dangol <i>et al.</i> (1988)
<i>Indigofera linifolia</i> (L.f.) Retz.	300-1300	Sapkota <i>et al.</i> (2010)

Appendix 1 Contd ...

<i>Lathyrus aphaca</i> L. "Banmatar, Pitpir, Jangalimatar, Jangali kheshar, Jangali kerau"	200-1200	Manandhar (1978), Chaudhary (1979), Devkota (1983), Ranjit (1983b), Regmi <i>et al.</i> (1986), Dangol (1987), Ranjit and Bhattacharai (1988), Mazek (1991), Ranjit (1999), Dangol (2000-2001), Ranjit <i>et al.</i> (2006)
<i>Lathyrus sativus</i> L.	200-1500	Sapkota <i>et al.</i> (2010)
<i>Lens culinaris</i> Medic.	150-1000	Sharma <i>et al.</i> (2010)
<i>Lotus corniculatus</i> L. "Badami jhar, Pyauli Charidana gera"	1500-3900	Manandhar (1978), Chaudhary (1979), Rajibhandary and Ojha (1979), Regmi <i>et al.</i> (1986)
<i>Medicago denticulata</i> Willd. <i>{M. polymorpha</i> L.} "Sankhe pyauli"	200-400	Regmi <i>et al.</i> (1986), Dangol (1987), Dangol <i>et al.</i> (1988), Ranjit and Bhattacharai (1988), Thapa and Kayastha (1996), Dangol (2000-2001), Thapa (2003), Ranjit <i>et al.</i> (2006)
<i>Medicago falcata</i> L. "Bhiren"	2700-4000	Regmi <i>et al.</i> (1986)
<i>Medicago lupulina</i> L. "Pahenlo jhuppe pyauli"	100-4000	Chaudhary (1979), Regmi <i>et al.</i> (1986), Dangol (1987), Dangol <i>et al.</i> (1988), Dangol (2000-2001), Sharma <i>et al.</i> (2010)
<i>Medicago sativa</i> L.	2900	Sharma <i>et al.</i> (2010)
<i>Melilotus alba</i> Medic. "Methi jhar" <i>{M. parviflora</i> Desf.} "Methi jhar"	200-1000	Manandhar (1978), Bhatta (1981), Ranjit (1982, 1983b), Regmi <i>et al.</i> (1986), Dangol (1988), Mazek (1991), Dangol (2000-2001)
<i>Melilotus indica</i> Mill. <i>{M. parviflora</i> Desf.} "Methi jhar"	200-3600	Rajibhandary and Ojha (1979), Ranjit (1983a), Regmi <i>et al.</i> (1986), Dangol (1987), Ranjit and Bhattacharai (1988), Ranjit (1999), Dangol (2000-2001), Ranjit <i>et al.</i> (2006)

Appendix 1 Contd ...

<i>Parocheletus communis</i> Buch.-Ham. ex D. Don "Nilopyaull"	900-4000	Regmi et al. (1986)
<i>Trifolium pratense</i> L.	1300-2500	Manandhar (1978)
<i>Trifolium repens</i> L. "Beuli, Pyaul"	1300-2500	Chaudhary (1979), Rajbhandary and Ojha (1979), Ranjit (1983a), Regmi et al. (1986), Ranjit (1999), Ranjit and Sumakethnikom (2003), Sapkota et al. (2010)
<i>Trigonella emodi</i> Benth.	1800-1900	Sharma et al. (2010)
<i>Vicia angustifolia</i> L.	200-4000	Manandhar (1978), Mazek (1991), Joshi and Gretzmacher (1999)
<i>Vicia hirsuta</i> (L.) S. F. Gray "Ankara, Jhusue ankati, Kutilkosa"	200-2700	Manandhar (1978), Rajbhandary and Ojha (1979), Chaudhary and Shrestha (1981), Ranjit (1982, 1983a), Dangol (1987), Dangol et al. (1988), Ranjit and Bhattacharai (1988), Dangol and Chaudhary (1994), Joshi and Gretzmacher (1999), Ranjit (1999), Dangol (2000-2001), Ranjit and Sumakethnikom (2003), Ranjit et al. (2006)
<i>Vicia parviflora</i> "Sano Kutilkosa"		Regmi et al. (1986)
<i>Vicia rigidula</i> Royle	250	Dangol et al.(1988)
<i>Vicia sativa</i> L. "Kutilkosa"	200-2700	Chaudhary (1979), Rajbhandary and Ojha (1979), Chaudhary and Shrestha (1981), Ranjit (1983a, 1983b), Regmi et al. (1986), Dangol et al. (1988), Ranjit and Bhattacharai (1988)Mazek (1991), Dangol and Chaudhary (1994), Joshi and Gretzmacher (1999), Ranjit (1999), Dangol (2000-2001), Ranjit et al. (2006)

Appendix 1 Contd ...

<i>Vicia tetrasperma</i> Moench. "Sano kutilkosa"	200-2700	Chaudhary (1979), Rajbhandary and Ojha (1979), Regmi et al. (1986), Dangol (1987), Mazek (1991), Dangol and Chaudhary (1994), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Dangol (2000-2001), Thapa (2003)
ROSACEAE		
<i>Duchesnea indica</i> Focke { <i>Fragaria indica</i> Andrs.} "Paheo phul, Bhukaphal"	1000-2500	Manandhar (1978), Chaudhary (1979), Rajbhandary and Ojha (1979), Mazek (1991)
<i>Duchesnea nubicola</i> Lindl.	1600-4000	Mazek (1991)
<i>Fragaria rubiginosa</i> Laciata { <i>F. vesca</i> L.} "Bhuikaphal"	1000-2500	Chaudhary (1979)
<i>Potentilla kleiniana</i> Wight.	1000-2200	Chaudhary (1979), Mazek (1991)
<i>Potentilla spinosa</i> L. "Bajiradanti"	200-1400	Dangol et al. (1988), Dangol and Chaudhary (1994), Joshi and Gretzmacher (1999),
LYTHRACEAE		
<i>Ammannia rotundifolia</i> Lam.	250-2300	Manandhar (1978), Chaudhary (1979), Rajbhandary and Ojha (1979), Mazek (1991),
<i>Rotala rotundifolia</i> (Roxb.) Koehne	250-2300	Joshi and Gretzmacher (1999)
ONAGRACEAE		
<i>Ludwigia perennis</i> L. "Lwang jhar"	200-1400	Dangol et al. (1988)
<i>Oenothera rosea</i> L 'herit. ex Ait.	1100-2500	Manandhar (1978), Chaudhary (1979), Rajbhandary and Ojha (1979), Regmi et al. (1986), Mazek (1991)

Appendix 1 Contd ...

MOLLUGINACEAE			
<i>Mollugo hirta</i> Thunb.	1600-3200		Regmi <i>et al.</i> (1986)
APIACEAE			
<i>Centella asiatica</i> (L.) Urb. "Ghod tapre"	200-2100		Manandhar (1978), Chaudhary (1979), Raiphandary and Ojha (1979), Dangol (1987), Dangol <i>et al.</i> (1988), Mazek (1991), Dangol and Chaudhary (1994), Thapa and Kayastha (1996), Thapa (2003), Joshi and Gretzmacher (1999), Ranjit <i>et al.</i> (2006), Sapkota <i>et al.</i> (2010), Shah <i>et al.</i> (2011ab)
<i>Hydrocotyle nepalensis</i> Hook.	1000-2900		Ranjit (1999)
<i>Hydrocotyle rotundifolia</i> Roxb. ex DC. { <i>H. sibthorpioides</i> Lam.} "Ghod tapre"	200-2500		Manandhar (1978), Chaudhary (1979), Dangol <i>et al.</i> (1988), Dangol and Chaudhary (1994), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Dangol (2000-2001), Thapa (2003), Shah <i>et al.</i> (2011ab)
<i>Oenanthe javanica</i> (Bl.) DC. { <i>O. stolonifera</i> Wall. ex DC.}	200-1500		Regmi <i>et al.</i> (1986)
RUBIACEAE			
<i>Galium hirtiflorum</i> Req. ex DC.	1200-2200		Sharma <i>et al.</i> (2010)
<i>Oldenlandia aspera</i> DC.	250		Gupta <i>et al.</i> (1977)
<i>Oldenlandia corymbosa</i> L.	200-2400		Manandhar (1978)
<i>Oldenlandia diffusa</i> (Willd.) Roxb. "Majithe jhar"	200-1000		Chaudhary (1979), Regmi <i>et al.</i> (1986), Mazek (1991)

Appendix 1 Contd ...

<i>Oldenlandia gracilis</i> Wall. "Majithe jhar"	250	Dangol <i>et al.</i> (1988)
VALERIANACEAE		
<i>Valeriana jatamansi</i> Jones {"V. wallichii" DC.} "Sugandhwala"	1500-3500	Chaudhary (1979)
ASTERACEAE		
<i>Ageratum conyzoides</i> L. "Ganemane ghans"	200-2000	Manandhar (1978), Chaudhary (1979), Regmi <i>et al.</i> (1988), Mazek (1991), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Thapa (2003), Dangol (2000-2001), Ranjit <i>et al.</i> (2006)
<i>Ageratum houstonianum</i> Mill. "Nilo gandhe"	200-1400	Manandhar (1978), Regmi <i>et al.</i> (1988), Dangol <i>et al.</i> (1988), Dangol and Chaudhary (1994), Dangol (2000-2001) , Shah <i>et al.</i> (2011ab),
<i>Anaphalis adnata</i> Wall. ex DC. "Bukephul"	800-3200	Manandhar (1978)
<i>Anaphalis contorta</i> (D.Don) Hook. f.	1700-5180	Manandhar (1978)

<i>Leucas indica</i> (L.) R. Br. ex Vatke { <i>L. lavandulifolia</i> J.E. Smith., <i>L. linifolia</i> Spreng.} “Gumpate”	70-1000	Regmi et al. (1986)
<i>Leucas plukenetii</i> (Roth) Spreng. { <i>L. aspera</i> (Willd.) Link} “Gumpate”	250	Regmi et al. (1986), Dangol (1987), Dangol (2000-2001), Ranjit et al. (2006)
<i>Leucas zeylanica</i> R. Br. “Gumpate”		Regmi et al. (1986)
<i>Mentha arvensis</i> L.	1200-2000	Mazek (1991)
<i>Salvia plebeia</i> R. Br.	170-1100	Dangol (2000-2001), Shah et al. (2011ab)
PLANTAGINACEAE		
<i>Plantago erosa</i> Wall.	900-4100	Sapkota et al. (2010), Sharma et al. (2010)
<i>Plantago lanceolata</i> L. “Isabgol”	1700	Chaudhary (1979)
<i>Plantago major</i> L. “Isabgol”	900-4100	Manandhar (1978), Chaudhary (1979), Rajbhandary and Ojha (1979), Ranjit (1999)
AMARANTHACEAE		
<i>Alternanthera philoxeroides</i> (L.) DC.	1350	Ranjit and Sumakethnikom (2003)

Appendix 1 Contd ...

<i>Alternanthera sessilis</i> (L.) DC. "Bhiringi jhar, Jibrepatejhar"	200-2000	Manandhar (1978), Chaudhary (1979), Dangol (1987), Dangol et al. (1988), Mazek (1991), Dangol and Chaudhary (1994), Joshi and Gretzmacher (1999), Dangol (2000-2001), Thapa (2003), Shah et al. (2011ab)
<i>Amaranthus hybridus</i> L. "Lunde jhar"	1500-1700	Thapa and Kayastha (1996), Thapa (2003)
<i>Amaranthus lividus</i> L. { <i>A. blitum</i> L.} "Ban lunde"	200-2700	Chaudhary (1979), Mazek (1991)
<i>Amaranthus spinosus</i> L. "Ban lunde"	150-2133	Manandhar (1978), Chaudhary (1979), Dangol et al. (1988), Mazek (1991), Thapa and Kayastha (1996), Thapa (2003)
<i>Amaranthus viridis</i> L. "Lunde"	150-1300	Dangol et al. (1988), Ranjit et al. (2006)
<i>Celosia argentea</i> L. "Seto chaudde"	150-1600	Regmi et al. (1986), Mazek (1991)
<i>Digeraea arvensis</i> Forssk.	200-300	Regmi et al. (1986)
<i>Gomphrena decumbens</i> Jacq. "Makhamali jhar"	150-200	Regmi et al. (1986)
CHENOPodiaceae		

Appendix 1 Contd ...

<i>Chenopodium album</i> L. "Bethe"	200-4000	Gupta <i>et al.</i> (1977), Shivakoti <i>et al.</i> (1977), Manandhar (1978), Chaudhary (1979), Rajibhandary and Ojha (1979), Malla and Ranjit (1978), Bhatta (1981), Chaudhary and Shrestha (1981), Ranjit (1982, 1983a, 1983b), Devkota (1983), Regmi <i>et al.</i> (1986), Dangol (1987), Dangol <i>et al.</i> (1988), Ranjit and Bhattrai (1988), Mazek (1991), Dangol and Chaudhary (1994), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Ranjit (1999), Dangol (2000-2001), Ranjit (2003), Ranjit and Sumaketenikom (2003), Thapa (2003), Ranjit <i>et al.</i> (2006), Ranjit <i>et al.</i> (2009), Sapkota <i>et al.</i> (2010), Sharma <i>et al.</i> (2010), Shah <i>et al.</i> (2011ab)	Manandhar (1978), Mazek (1991), Ranjit and Sumaketenikom (2003)
<i>Chenopodium ambrosioides</i> L. "Rato bethe"	1300-3000		Manandhar (1978), Mazek (1991), Ranjit and Sumaketenikom (2003)
<i>Chenopodium botrys</i> L. "Ganaune bethe"	3400-4000	Regmi <i>et al.</i> (1986), Sharma <i>et al.</i> (2010)	
<i>Chenopodium murale</i> L. "Kalo bethe"	1300-1500	Manandhar (1978), Regmi <i>et al.</i> (1986), Dangol <i>et al.</i> (1988), Dangol (2000-2001)	
POLYGONACEAE			
<i>Polygonum amplexicaule</i> D. Don. "Rattyaule jhai"	1200-2000	Regmi <i>et al.</i> (1986)	
<i>Polygonum aviculare</i> L.	3500-4200	Ranjit (1999)	
<i>Polygonum barbatum</i> L. { <i>Persicaria barbata</i> (L.) Hara}	200-1100	Mazek (1991), Dangol and Chaudhary (1994), Dangol (2000-2001),	

Appendix 1 Contd ...

<i>Polygonum capitatum</i> Buch.-Ham. ex D. Don. { <i>Persicaria capitata</i> (Buch.-Ham. ex D. Don.) H. Gross} "Ratnyaule jhar"	600-2400	Manandhar (1978), Numata (1982), Regmi <i>et al.</i> (1986), Sthapit (1986), Ranjit <i>et al.</i> (2006)
<i>Polygonum chinense</i> L.	1200-2900	Joshi and Gretzmacher (1999)
<i>Polygonum hydropiper</i> L. { <i>Persicaria hydropiper</i> (L.) Spach} "Pire jhar, Sim jhar"	700-2300	Manandhar (1978), Chaudhary (1979), Rajbhandary and Ojha (1979), Regmi <i>et al.</i> (1986), Sthapit (1986), Mazek (1991), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Ranjit (1999), Ranjit (2003), Thapa (2003), Ranjit <i>et al.</i> (2006), Ranjit <i>et al.</i> (2009), Sapkota <i>et al.</i> (2010)
<i>Polygonum lanigerum</i> R. Br.	200	Joshi and Gretzmacher (1999)
<i>Polygonum lapathifolium</i> L.	250	Mazek (1991)
<i>Polygonum minus</i> Huds.	600-2500	Mazek (1991)
<i>Polygonum mite</i> Schrank	1300-1500	Mazek (1991), Joshi and Gretzmacher (1999)
<i>Polygonum nepalense</i> Meisn. { <i>Persicaria nepalensis</i> (Meisn.) H. Gross.}	1200-4100	Mazek (1991), Thapa and Kayastha (1996), Thapa (2003), Sharma <i>et al.</i> (2010)
<i>Polygonum perfoliatum</i> L.	900-1400	Mazek (1991)

Appendix 1 Contd ...

<i>Polygonum plebeium</i> R. Br. "Sukul jhar, Masinopire jhar"	200-2500	Gupta <i>et al.</i> (1977), Shivakoti <i>et al.</i> (1977), Manandhar (1978), Chaudhary (1979), Rajbhandary and Ojha (1979), Numata (1982), Devkota (1983), Regmi <i>et al.</i> (1986), Dangol (1987), Dangol <i>et al.</i> (1988), Mazek (1991), Dangol and Chaudhary (1994), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Ranjit (1999), Dangol (2000-2001), Thapa (2003), Ranjit <i>et al.</i> (2006), Sapkota <i>et al.</i> (2010), Shah <i>et al.</i> (2011ab)
<i>Polygonum possumbu</i> Buch.-Ham. ex D. Don. "Setopire jhar"	200-2000	Manandhar (1978), Joshi and Gretzmacher (1999)
<i>Polygonum viscosum</i> Buch.-Ham. ex D. Don. "Pire jhar"	750-1800	Rajbhandary and Ojha (1979), Regmi <i>et al.</i> (1986), Mazek (1991), Joshi and Gretzmacher (1999), Ranjit (1999)
<i>Rumex crispus</i> L.	1400	Ranjit and Bhattacharai (1988), Ranjit (1999), Ranjit and Sumakethnikom (2003), Ranjit (2003), Ranjit <i>et al.</i> (2009)
<i>Rumex dentatus</i> L. { <i>R. obtusifolius</i> L.} "Halhale, Banpalungo"	200-1400	Rajbhandary and Ojha (1979), Regmi <i>et al.</i> (1986), Mazek (1991), Dangol (2000-2001), Shah <i>et al.</i> (2011ab)
<i>Rumex hastatus</i> D. Don. "Halhale"	1100-2600	Regmi <i>et al.</i> (1986)
<i>Rumex nepalensis</i> Spengg. "Halhale"	1200-4200	Manandhar (1978), Chaudhary (1979), Regmi <i>et al.</i> (1986), Mazek (1991), Sharma <i>et al.</i> (2010)
EUPHORBIACEAE		
<i>Chrozophora prostrata</i> Dalz. "Pannapati"	80-200	Regmi <i>et al.</i> (1986)

Appendix 1 Contd ...

<i>Chrozophora rotitieri</i> (Geis.) A. Juss. “Suryahari”	80-200	Regmi <i>et al.</i> (1986)
<i>Croton bonplandianus</i> Baill. { <i>C. sparsiflorus</i> Morong} “Mirchhaiya ghans”	100-400	Regmi <i>et al.</i> (1986), Dangol (2000-2001)
<i>Euphorbia cyparissias</i> L. “Dudhe jhar”	200-1500	Regmi <i>et al.</i> (1986)
<i>Euphorbia dracunculoides</i> Lam. “Dudhe jhar”	181-1500	Regmi <i>et al.</i> (1986)
<i>Euphorbia helioscopia</i> L. “Dudhe jhar”	up to 3000	Dangol (1987)
<i>Euphorbia heterophylla</i> L. { <i>E. geniculata</i> Ort.} “Dudhe jhar”	250-1600	Manandhar (1978), Dangol <i>et al.</i> (1988)
<i>Euphorbia hirta</i> L. { <i>E. pilulifera</i> L.} “Dudhe jhar/Rato maslahare”	150-1500	Manandhar (1978), Chaudhary (1979), Dangol <i>et al.</i> (1988), Mazek (1991), Dangol (2000-2001), Thapa (2003)
<i>Euphorbia microphylla</i> Heyne ex Roth. “Masino dudhe”		Regmi <i>et al.</i> (1986)
<i>Euphorbia parviflora</i> L. “Masino dudhe”	150-400	Dangol <i>et al.</i> (1988), Dangol (2000-2001)
<i>Euphorbia prostrata</i> Ait. “Kanike ghans”	200-1400	Manandhar (1978), Chaudhary (1979), Mazek (1991)
<i>Phyllanthus glaucas</i> Wall. ex Muell.- Arg. { <i>P. flueggeiformis</i> Muell.-Arg.}	250-2100	Dangol <i>et al.</i> (1988)
<i>Phyllanthus niruri</i> L. “Amala jhar”	250-1600	Manandhar (1978), Regmi <i>et al.</i> (1986), Thapa (2003)

Appendix 1 Contd ...

<i>Phyllanthus urinaria</i> L. "Amala jhar"	200-1700	Manandhar (1978)
URTICACEAE		
<i>Gonostegia hirta</i> (Bl.) Miq. "Maslahare"	500-2400	Manandhar (1978)
<i>Pouzolzia zeylanica</i> (L.) Benn. & Brown "Chiple jhar"	200-2400	Manandhar (1978), Dangol et al. (1988)
CANNABACEAE		
<i>Cannabis sativa</i> L. "Bhang, Ganja"	200-3600	Manandhar (1978), Chaudhary (1979), Rajbhandary and Ojha (1979), Chaudhary and Shrestha (1981), Ranjit and Bhattacharai (1988), Ranjit (1993a, 1993b), Regmi et al. (1986), Dangol et al. (1988), Mazek (1991), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Ranjit (1999), Thapa (2003), Ranjit (2003), Ranjit et al. (2006), Ranjit et al. (2009), Sapkota et al. (2010)
Flowering Plants: Monocots		
ARACEAE		
<i>Arisaema jacquemontii</i> Blume	2700-4000	Sharma et al. (2010)
COMMELINACEAE		
<i>Commelina benghalensis</i> L. "Bankane"	200-2700	Chaudhary (1979), Dangol et al. (1988), Thapa and Kayastha (1996)
<i>Commelina diffusa</i> Burm. f.	200-2500	Mazek (1991)
<i>Murdannia nudiflora</i> (L.) Brenan	200-1500	Manandhar (1978)

Appendix 1 Contd ...

JUNCACEAE	
<i>Juncus bufonius</i> L.	1100-3600
<i>Juncus concinnus</i> D. Don.	2100-5200
<i>Juncus prismato-caeruleus</i> R. Br.	200-1600
LILIACEAE	
<i>Asphodelus tenuifolius</i> Cav. "Ban pyai"	200-300
CYPERACEAE	
<i>Bulbostylis capillaris</i> Kunth	150-1300
<i>Bulbostylis densa</i> (Wall. ex Rottb.) Hand.-Mazz.	1500-3500
<i>Carex nubigena</i> D. Don.	1500-4000
<i>Cyperus aristatus</i> Rottb.	200-2700
<i>Cyperus cyperoides</i> (L.) O. Kuntz.	250-2000
<i>Cyperus difformis</i> L. "Mothe"	100-2700
<i>Cyperus rotundus</i> L. "Kasur mothe"	181-2400
<i>Eleocharis pellucida</i> Presl.	200-2300
<i>Fimbristylis aestuialis</i> (Retz.) Vahl	250-2000
<i>Mazek</i> (1991), <i>Joshi</i> and <i>Gretzmacher</i> (1999)	
<i>Chaudhary</i> (1979), <i>Sapkota et al.</i> (2010)	
<i>Mazek</i> (1991), <i>Joshi</i> and <i>Gretzmacher</i> (1999)	
<i>Regmi et al.</i> (1986)	
<i>Dangol</i> and <i>Chaudhary</i> (1994), <i>Joshi</i> and <i>Gretzmacher</i> (1999)	
<i>Mazek</i> (1991)	
<i>Numata</i> (1982)	
<i>Manandhar</i> (1978)	
<i>Numata</i> (1982)	
<i>Chaudhary</i> (1979), <i>Sapkota et al.</i> (2010)	
<i>Gupta et al.</i> (1977), <i>Manandhar</i> (1978), <i>Chaudhary</i> (1979), <i>Devkota</i> (1983), <i>Regmi et al.</i> (1986), <i>Dangol</i> (1987), <i>Dangol et al.</i> (1988), <i>Thapa</i> and <i>Kayastha</i> (1996), <i>Thapa</i> (2003)	
<i>Mazek</i> (1991), <i>Joshi</i> and <i>Gretzmacher</i> (1999)	
<i>Mazek</i> (1991), <i>Joshi</i> and <i>Gretzmacher</i> (1999)	

Appendix 1 Contd ...

<i>Fimbristylis littoralis</i> Gaudich.	100-2000	Ranjit <i>et al.</i> (2006)
<i>Fimbristylis squarrosa</i> Vahl "Mothe"	200-1500	Dangol (1987), Joshi and Gretzmacher (1999)
<i>Kyllingia brevifolia</i> Tott. {=Cyperus brevifolius (Rottb.) Hassk.} "Mothe"	100-2300	Manandhar (1978), Chaudhary (1979), Sapkota <i>et al.</i> (2010)
<i>Kyllinga monocephala</i> Rottb. {Cyperus kyllingia Endle}	200-1200	Dangol (1987)
POACEAE		
<i>Agrostis pilosula</i> Trin.	2000-4600	Sharma <i>et al.</i> (2010)
<i>Alopecurus aequalis</i> Sobol.	2300-2900	Manandhar (1978), Rajbhandary and Ojha (1979), Mazek (1991), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Ranjit and Sumakethnikom (2003), Thapa (2003), Ranjit <i>et al.</i> (2009)
<i>Alopecurus geniculatus</i> L.	1700	Mazek (1991)
<i>Alopecurus nepalensis</i> Trin. ex Steud. "Ragate"	1400	Chaudhary (1979)
<i>Alopecurus pratensis</i> L.	1400	Ranjit (1983a), Ranjit (1999)
<i>Arrhaxon lancifolius</i> (Trin.) Hochst.	900-1800	Manandhar (1978)
<i>Avena fatua</i> L. "Jangali jai"	2100-3700	Rajbhandary and Ojha (1979), Devkota (1983), Dangol (1987), Dangol <i>et al.</i> (1988), Ranjit and Bhattacharai (1988), Dangol and Chaudhary (1994), Joshi and Gretzmacher (1999), Dangol (2000-2001), Ranjit <i>et al.</i> (2006), Sapkota <i>et al.</i> (2010), Sharma <i>et al.</i> (2010)
<i>Brachiaria ramosa</i> (L.) Stapf.	200-1800	Mazek (1991)

Appendix 1 Contd ...

<i>Chloris barbata</i> Swartz		Regmi <i>et al.</i> (1986)
<i>Chrysopogon aciculatus</i> (Retz.) Trin. { <i>Raphis aciculatus</i> (Retz.) Honda}	150-1700	Mazek (1991)
<i>Cynodon dactylon</i> (L.) Pers. "Dubo"	100-3400	Gupta <i>et al.</i> (1977), Shivakoti <i>et al.</i> (1977), Manandhar (1978), Chaudhary (1979), Malla and Ranjit (1980), Bhatta (1981), Ranjit (1982, 1983a), Devkota (1983), Regmi <i>et al.</i> (1986), Dangol (1987), Dangol <i>et al.</i> (1988), Ranjit and Bhattacharai (1988), Mazek (1991), Dangol and Chaudhary (1994), Thapa and Kayastha (1996), Joshi and Gretzmacher (1999), Ranjit (1999), Dangol (2000-2001), Ranjit and Sumakeetnikom (2003), Thapa (2003), Ranjit <i>et al.</i> (2006), Sapkota <i>et al.</i> (2010), Shah <i>et al.</i> (2011ab)
<i>Cyrtococcum patens</i> (L.) A. Camus	1300-1500	Chaudhary (1979)
{ <i>Panicum patens</i> L.}		
<i>Dactyloctenium aegyptium</i> (L.) P. Beauv. "Tauke jhar"	200-900	Dangol <i>et al.</i> (1988), Thapa and Kayastha (1996), Thapa (2003), Ranjit <i>et al.</i> (2006)
<i>Dichanthium annulatum</i> (Forssk.) Stapf.	150-1100	Regmi <i>et al.</i> (1986), Dangol (2000-2001)
<i>Digitaria ciliaris</i> (Retz.) Koel. { <i>D. adscendens</i> (Kunth) Henr.} "Chitre banso"	200-1500	Chaudhary (1979), Dangol (1987), Dangol and Chaudhary (1994), Ranjit (1999), Dangol (2000-2001), Ranjit <i>et al.</i> (2006)
<i>Digitaria longifolia</i> (Retz.) Pers.	200-1100	Mazek (1991)
<i>Digitaria sanguinalis</i> (L.) Scop.	150-2240	Mazek (1991), Shah <i>et al.</i> (2011ab)
<i>Digitaria violascens</i> Link	1200-1800	Mazek (1991)

Appendix 1 Contd ...

<i>Echinochloa colona</i> L. "Sama"	200-2400	Thapa and Kayastha (1996)
<i>Echinochloa crus-galli</i> (L.) P. Beauv. "Sama banso"	200-2400	Dangol (2000-2001)
<i>Eleusine indica</i> (L.) Gaertn. "Kodejhar"	200-2600	Manandhar (1978), Ranjit et al. (2006)
<i>Eragrostis atrovirens</i> (Desf. Trin. ex Steud. "Tauke jhar"	200-1800	Manandhar (1978), Mazek (1991)
<i>Eragrostis gangetica</i> (Roxb.) Steud.	250	Dangol (1987)
<i>Eragrostis japonica</i> (Thunb.) Trin. "Ranki"	200-1700	Manandhar (1987), Mazek (1991)
<i>Eragrostis nigra</i> Nees ex Steud.	900-3000	Chaudhary (1979), Regmi et al. (1986)
<i>Eragrostis nutans</i> (Retz.) Nees ex Steud. { <i>E. stenophylla</i> Hochst}	700-2000	Chaudhary (1979)
<i>Eragrostis tenella</i> (L.) P. Beauv. ex Roem. et Schult. "Dule ghans"	200-1500	Chaudhary (1979), Regmi et al. (1986), Mazek (1991)
<i>Eragrostis unioloides</i> (Retz.) Nees ex Steud.	200-2200	Manandhar (1987), Mazek (1991)
<i>Eulaliopsis binata</i> (Retz.) C. E. Hubbard "Banki jhar"	150-2600	Manandhar (1978)
<i>Hemarthria compressa</i> (L.f.) R. Br.	200-1400	Dangol and Chaudhary (1994), Joshi and Gretzmacher (1999), Dangol (2000-2001)
<i>Imperata cylindrica</i> (L.) P. Beauv. "Siru"	200-2000	Dangol (1987), Thapa and Kayastha (1996), Thapa (2003)
<i>Ischaemum rugosum</i> Salisb.	200-1500	Thapa (2003)

Appendix 1 Contd ...

<i>Lolium temulentum</i> L.	900-1500	Dangol (1987), Mazek (1991), Joshi and Gretzmacher (1999)
<i>Paspalum distichum</i> L.	200-2000	Numata (1982), Thapa (2003)
<i>Paspalum scrobiculatum</i> L. "Mane jhar"	200-2200	Dangol (2000-2001)
