

EDITORIAL

We have been publishing our Medical Journal of Shree Birendra Hospital annually since last five years. With the passing away of our late King Birendra Bir Bikram Shah Dev from this year, we have decided to publish the 5th Volume of Medical Journal on the Anniversary of Shree Birendra Hospital on 14th Poush 2059.

Within this short period of time Editorial Board is happy to receive overwhelming response from our medical personnel contributing with large number of medical articles.

With the changing political situation in our country, we have been going through hostile moments since last one year. Our hospital is working like front line hospital receiving and treating large number of combat casualties from all over Nepal such as Dang, Rolpa, Mechi, Mahakali and Jumla etc.

To match with the situation and with the experience of treating mass Combat Casualties in this hospital and field alike, our medical doctors and staffs have contributed lots of medical manuscripts regarding treatment of Combat Casualties.

I am pleased to announce the publication of the 5th Volume of Medical Journal of Shree Birendra Hospital. I wish to thank on behalf of Editorial Board to our Higher Authorities for their kind co-operation and support to give continuity in the publication of this Medical Journal and request our young medical colleagues to come forward to give continuity in the future too.

My heartfelt thank goes to our medical colleagues who has contributed with their medical articles which will help to share our medical experiences with our colleagues in the other Institutions as well.

Lastly, I wish to thank our advisors, members and staffs for their excellent work in compiling the 5th volume of Medical Journal. I would like to thank the Institutions and Companies who have contributed with their advertisements to make this publication successful.

With best wishes,

Chief Editor

Col. Dr. Gambhir Lal Rajbhandary

MBBS, MS, FICS

Consultant Cardio-Thoracic Surgeon

Shree Birendra Hospital

14th Poush 2059

Contents
