

Editorial Note

We are pleased to present the seventh volume of *AMC Journal (Dhangadhi)* for the year 2026, published by the Research Management Cell (RMC) of Aishwarya Multiple Campus (AMC), Dhangadhi, Kailali. This journal aims to disseminate contemporary knowledge and research findings in the fields of natural and social sciences.

The timely publication of this volume has been made possible through the continued encouragement and support of our readers, scholars, academicians, and members of the Advisory Board. This issue comprises eleven research articles contributed by scholars from diverse academic disciplines. The journal particularly encourages research and project work conducted by teachers and students to promote scholarly writing, strengthen analytical abilities, and enhance the research culture on campus.

All submitted manuscripts were reviewed through a blind peer-review process by subject experts. The valuable comments and suggestions provided by the reviewers were communicated to the authors for necessary revisions. The identities of both reviewers and authors were kept confidential to maintain the academic integrity and quality of the publication. After careful review, revision, and editorial processing, the selected articles were compiled and prepared for publication.

We sincerely acknowledge the dedicated efforts of the Publication Committee (Research Department), peer reviewers, Editorial Board, and Advisory Board, whose continuous guidance and commitment made this publication possible. We are equally grateful to all contributing authors for their valuable scholarly contributions.

Despite our best efforts, some inadvertent errors may remain, and we take full responsibility for any editorial shortcomings. We welcome constructive comments and suggestions from scholars and readers for the improvement of future issues.
