Department of Neurosurgery

B and C Medical College Teaching Hospital and Research Center, Birtamode, Jhapa, Nepal

Email: tamrakarkaruna@gmail.com

I am a woman in neurosurgery,
I have family to take care and daughter to lend,
I have clothes to wash and house to mend!

I have patients to see and operate the case
Make them walk and bring smile on their face
I bleed, I cramp and I still hustle with grace!

I have food to shop and dinner to make
I have chores to do being less shake

Discourage, lies, failures
I face many challenges and hardship,
Unsocial, introvert, grouchy is name I gain,
I fail to make people happy is the main blame!

I roar to supercilious and worry for needy
I hate discrimination and dominating society,
I stand next to disparity, and I am a warrior
Neurosurgery is my dream and my career!
I have passion to follow keeping my heart mellow

I have aneurysm to coil and AVM to embolize

I have aneurysm to clip and tumor to excise!

I have several lives to save and vision to restore,

I have hematoma to evacuate and brain to decompress

I have broken spine to fix and cord to decompress

But, I have no time for this false world to impress!

I have books to read and duty to teach,

I have paper to write and an article to publish,

Gossiping, backbiting and leg-pulling, isn't it rubbish!

My old mother, she wishes to hear!

And I remain busy oh! Dear

With God grace and her prayer,

I am a woman in neurosurgery with no fear!
