

Editorial

It is a matter of enormous pleasure to publish the *Economic Review of Nepal (ERN)*, 5(1) by the Department of Economics, Ratna Rajyalaxmi Campus. The department is striving for the publication of scholarly articles on various areas of economics in English medium. This journal containing five articles has a variety of writings in the domain of economics. Economic issues seem to play a paramount role in the twenty-first century. Therefore, it is hoped that this academic work could quench readers' appetites to some extent.

Finally, it is claimed that the strength of this journal is contingent on the inclusion of diverse current issues of economic literature. The articles of ERN are highly fruitful to those interested in economics literature, such as scholars, policymakers, researchers, students of economics, and other scientific communities. Any constructive comments and suggestions are highly welcome and will be embraced to emend them in the coming issues.
