Prof. Maha Dutta Paudel  
Er. Rabindra Khatri  
Er. Sudeep Thapa

Dear colleagues, contributors, and readers,

I am thrilled to extend my heartfelt congratulations to the entire team for successfully launching the first edition of the International Journal on Engineering Technology (InJET), proudly published by Kantipur Engineering College. This momentous achievement is a testament to the dedication, hard work, and scholarly commitment of everyone involved.

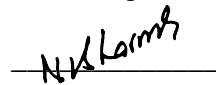

InJET aims to provide a platform for cutting-edge research and innovation in engineering and technology. With the publication of our inaugural edition, we mark the beginning of a journey that promises to be a source of valuable insights and knowledge for researchers, academics, and practitioners worldwide.

I am grateful to all the authors who entrusted us with their research, the reviewers who diligently evaluated the submissions, the editorial board members for their expert guidance, and the production team for their meticulous work in bringing this journal to life. Together, we have created a platform that will foster the exchange of ideas and contribute to advancing engineering technology.

As the Editor-in-Chief, I am honored to be part of this exciting endeavor, and I am eager to see InJET flourish and grow in the coming years. I encourage everyone to continue their exceptional work and support in making this journal a leading resource in the field.

Once again, congratulations to the entire team for this remarkable accomplishment. I look forward to the many significant contributions and discoveries that will enrich the pages of InJET in the editions to come.

Warm regards,

Prof. Nabin Chandra Sharma  
Editor-in-Chief
