

Editorial

Journal of Nepalese Prosthodontic Society (JNPS) editorial team proudly present Volume 2, Number 2 issue of JNPS. Our objectives is to promote all members of Nepalese Prosthodontic Society and other dental fraternity to perform evidence base practice and researcher activities.

JNPS aims to cover the scientific papers ranging from research activities, review articles, innovative clinical and laboratory procedures and recent advances in material sciences and technology. We are confident this would enhance knowledge and skill among academicians, clinicians and researchers alike.

JNPS editorial team are sincerely committed to improve the quality of this journal for more national and international recognitions. However, increase easy access to information technologies worldwide and limited research activities nationally has made challenges for achieving evidence based literatures with acceptable rehabilitation outcome.

As editor-in-chief, I would like to thank all our authors, reviewers, contributors, executive committee and members of NPS and the editorial team of JNPS for their hard work, support, suggestions and constant encouragement for upgrading the quality of JNPS.

Prof. Dr. Suraj R. B. Mathema
Editor in Chief
